Sildel
WE
THINK
CORK

We have sparked the curiosity of those who know or make contact with our products. They often want to know our secret or magic formula. In fact, there is no secret! It has been a life of more than 40 years solely and exclusively in contact with cork, this little wonder of nature, still unknown to so many. At a certain time, this close involvement is so extraordinary that we no longer know if cork is part of us, or if we are the ones who belong to it. The answer is simple...
Cork, is a matter of love!
